**Our 5-Star Certification Process** starts with rigorous guidelines. Every system has to go through a comprehensive certification process.

Our System Inspection Team takes on an exhaustive personal overview of the process. From Main Drive Components, Reducers and Motors, to Pulleys and Wear Strips, the system is inspected with a full IJW Manufacturer Warranty.

### 5 Star Certification Features:

- ★ Full Manufacturer's Warranty
- ★ Configuration Upgrades: Down-Go, Up-Go, CW/CCW
- ★ New Wear Components: pulleys, sprockets, rollers, wear strips and bearings
- ★ Sanitized and cleaned
- ★ Belt Inspection & UL Approval

**Every IJ White Certified Re-Engineered System offers a full OEM Warranty**

### How to get started:

1. Complete an IJ White Product Specification Sheet.
2. Schedule a call with us.
3. Review Specifications.
4. Finalize and receive a System Proposal.
5. Review proposal and ensure project expectations have been met.
